It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The committee appointed to wait upon the Lieutenant Governor reported, by introducing Lieutenant Governor Newbold to the President of the Senate, who invited him to the chair.

The retiring Lieutenant Governor, Joseph Dysart, then addressed the Senate as follows:

SENATORS:—In the progressive order of events, the moment has come when I must retire from this position, and present to you my honored successor. Before I attempted to discharge its delicate and oft-times difficult duties, I earnestly solicited of you a charitable construction of my motives and acts; and now that I deem my obligations all fulfilled and the end of official routine is reached, it were ungenerous in me not to gratefully acknowledge that you more than granted my request.

During the brief session of the Fifteenth General Assembly there were many animated discussions of questions involving diverse interests, and on which, too, public sentiment seemed nearly equally divided, yet I recall no occasion when there was the slightest departure from the good order and the dignified bearing which should ever characterize the deliberations of the Senate of a great State.

Nearly fifteen years have gone since I first entered this hall, whose walls have echoed the voices of many of the ablest and purest legislators Iowa has yet produced. It was in the darkest days of our nation, in May, 1861. Of the good and true men who then occupied these seats, I see not a single countenance. The pleasant associations with them in the days when war was desolating our land, and with gentlemen of the same high and noble type in the Thirteenth, Fourteenth

and Fifteenth General Assemblies, many of whom are still before me, can never pass from my memory.

To you, and especially to those of you with whom I have longest been intimate, I must express my warmest thanks for your universal respect, patient submission to my rulings, whether right or wrong, and for your unmistakable good will, freely and courteously manifested.

I now introduce to you Lieutenant Governor Newbold, and bespeak for him like kind and magnanimous treatment.

With a full and abiding faith that we shall all meet again in the long hereafter in better and happier places, with the good, the true, and the faithful, I bid you one and all farewell.

Lieutenant Governor Newbold then addressed the Senate as follows :

Senators : You have been called from the different Senatorial districts of this State, by the voice of the people, expressed under the provisions of our constitution, to conserve the interests of your constituents, not by merely preserving or perpetuating the fair name of our noble State, but to aid in advancing beyond the present standard, the material interests and prosperity of our young and rapid growing commonwealth. They have explicitly declared by their suffrages, implicit confidence in your integrity and ability to carry out their known *will*, which is, or *should be*, the one great and fundamental principle of our government. By the same authority, and under the provisions of the same supreme law, I have been called to assist you in the discharge of your onerous duties, by presiding over the deliberations of your honorable body. It is not my province, nor would I venture to dictate, any course of action, as to the work that will come before you. From a personal acquaintance with, and a knowledge of, the members that compose this branch of the Sixteenth General Assembly, I have the strongest assurance that the people acted wisely in selecting their Senators, and that you *all* have the will and disposition to do your duty, and will prove yourselves equal to every emergency. As your presiding officer, I certainly realize that my position is not merely a post of honor, but of power and responsibility ; the duties are arduous and delicate. Parliamentary law, rules, and rulings, in their nature are generally positive, and in effect *must be* in a greater or less degree instantaneous. The design however, of all our rules and forms, is to subserve the will of the Senate, rather than to restrain it ; and my aim shall be to facilitate, and not to obstruct your proceedings. I have had little or no experience in this branch of the General Assembly, and will doubtless commit errors ; but ask your kind indulgence and forbearance, and will always be ready and willing to take advice and counsel from those of you who are versed in parliamentary law. On taking the chair, I regard each and every one of you as a personal friend and will treat you as such. But I am sure that I will avoid any dividing line between duty and policy.

Senators, permit me upon this occasion to express through you the representatives of the people, my grateful acknowledgments for their generous support. Trusting that our official and personal relations will be of an amicable character, and the proceedings of this General Assembly harmonious and for the best interest of our State, I now receive the gavel, take the chair, and assume the responsibilities of the office.

RESOLUTION.

Senator McCormack offered the following resolution, which was adopted unanimously.

Joseph Dysart, the retiring Lieutenant Governor, the thanks of this Senate is due for his gentlemanly demeanor as our presiding officer for the last two years, and we tender to him in his again assuming the duties and station of a private citizen, our best wishes and kindest regards.

COMMUNICATION FROM THE GOVERNOR.

The President then laid before the Senate the following communication from the Governor:

The report was ordered printed and with the communication referred to the Centennial Committee.

Gentlemen of the Senate and House of Representatives:—I transmit herewith the report of Hon. Robert Lowry of the United States Centennial Commission, to which, and to the printed report of the Iowa Board of Centennial Managers, already before you, I ask your attention. The growth of our State in population and wealth, must for many years to come, depend largely upon immigration. We seek and welcome immigrants from all the States of our nation, and from all the nations of the civilized world. We offer perhaps more

surely than any other portion of our country, certain and bountiful facilities for comfortable living to all coming among us who are willing to work.

A creditable showing at the Centennial Exhibition of the capabilities of our State may do much to bring immigrants among us, and our failure in that regard may work us injury. Aside from this consideration, a proper degree of State pride should lead us to make sure that such of our citizens as may visit the exhibition shall not have cause to feel ashamed of the position our State will occupy there.

I therefore recommend that you make such appropriation as will enable those who may be charged with procuring and exhibiting the products of Iowa, to do so in a plain, economical, but proper manner. I also recommend that you cause to be printed for free distribution at the exhibition a large edition,—say five thousand copies, of our census report for 1875; or a full summary thereof, for the reason that much information as to the wealth, productiveness, resources, and growth of the State (in convenient form for examination and preservation) would thereby be imparted.

SAMUEL J. KIRKWOOD.

EXECUTIVE OFFICE, January 24th, 1876.

REPORT OF UNITED STATES CENTENNIAL COMMISSION.

TO HIS EXCELLENCY SAMUEL J. KIRKWOOD, *Governor of the State of Iowa.*

MY DEAR SIR:—It is made my duty to report to you, annually, the progress and advancement of the United States Centennial Exhibition which will open at Fairmount Park, in the city of Philadelphia, State of Pennsylvania, on the 10th day of May, 1876, and will close on the 10th day of November following.

When the United States Centennial Commission first assembled at Independence Hall in the city of Philadelphia, on the 4th day of March 1872, the Commission had not one dollar in its treasury, not one cent to pay incidental expenses. Wise men shook their heads, the press in the east prophesied that it would be a failure because it was not located at New York, or Boston. Congress, after creating the United States Commission, refused to give one dollar for the Centennial Anniversary of the greatest republican government the world has ever seen, but did appropriate thousands of dollars to send Commissioners to London, Paris, and Vienna. During all this time, all those dark days of the Centennial Exhibition, the Commission continued to meet regularly. Your Commissioner has attended every meeting since his appointment in 1871.

The United States Centennial Exhibition now promises to be a more splendid success than the most sanguine had dared to hope for. Below you will see what has been done, what the foreign nations of the earth have done, what nations will be there represented, and what is yet wanting.

“On the 4th of July, 1874, the first shovel of earth was removed by the Mayor of Philadelphia from the spot on which now stands Memorial Hall. Since that time there have been inclosed for the use of the

Exhibition two hundred and thirty acres. The following buildings have been erected, and have either been completed, or are in a condition to be completed in ample time for the Exhibition.

	ACRES.
The main Building, covering.....	21.47
Art Gallery (Memorial Hall).....	1.50
Machinery Hall.....	14.00
Horticultural Hall.....	1.50
Agricultural Building.....	10.15

Making a total of.....48.62

Add to this, other structures, such as the Government, Leather, Carriage, and Photograph Buildings of about..... 12.00

And it will give, of actual flooring for Exhibition purposes, about.....60.00

This is exclusive of the space occupied by the buildings erected by foreign nations, the several states, and for general purposes connected with the Exhibition. The whole of them will not be less in number than one hundred and fifty buildings. Compare this work for a moment with the great exhibitions that have taken place in other parts of the world. The following is a list of Exhibitions elsewhere, with the space covered, and cost of erection:

	YEAR.	SPACE COVERED.	COST.
London.....	1851	20 acres.	\$1,464,000
New York.....	1858	53¼ acres.	500,000
Paris.....	1855	30 acres.	4,000,000
London.....	1862	24 acres.	2,800,000
Paris.....	1867	40½ acres.	4,596,763
Vienna.....	1873	50 acres.	9,850,000
Philadelphia.....	1876	60 acres.	6,724,350

Again let me call your attention to the list of foreign nations that have accepted the invitation to take part, with the amounts appropriated for expenses, as far as ascertained:

I am gratified to learn that the State Centennial Board of Managers have done much toward having the products of Iowa fully represented at the exhibition. All that is now wanting is for the legislature to make a reasonable appropriation to pay the State Board Secretaries of the different groups, expenses of gathering the products and shipping them to Philadelphia.

Iowa should have a house at the exhibition, like her sister States, to be the headquarters of the Hawkeyes, a reception room for ladies and gentlemen; a register to be kept, and all citizens of Iowa to register

their names, their mails to be delivered to them, and all the newspapers in the State sent them.

Yours very truly,

ROBERT LOWRY,

U. S. Centennial Commissioner.

Davenport, January 12, 1866.

COMMUNICATION FROM THE GOVERNOR.

The following communication from the Governor was laid before the Senate which was referred to the Judiciary Committee.

DES MOINES, JANUARY 24, 1876.

Gentlemen of the Senate and House of Representatives:

I desire to call your attention to a question which arises at each recurring election by the General Assembly of managers of the various State Institutions, namely: as to when the terms of office of those managers respectively commence. At present the dates when the Trustees of the Agricultural College and those of the Hospitals for the Insane, respectively take office, only are defined: the former being the first day of May, and the latter on the fourth day of July. A joint resolution, adopted in 1872, fixed the first day of April as the date when the term of the Warden of the Penitentiary should commence; but, as the Code of the following year re-enacts the former law without the modification contemplated by that resolution, it is very doubtful whether the latter is now of force.

It seems to me desirable that, with reference to these agents of the State, there should be the same definiteness in this respect as obtains with regard to other State officers.

SAMUEL J. KIRKWOOD.

COMMUNICATIONS UPON THE PRESIDENT'S TABLE.

The President laid before the Senate the following communications from the Governor, which was read by the Secretary and passed on file:

STATE OF IOWA, EXECUTIVE DEPARTMENT, }
DES MOINES, February 8, 1876. }

Gentlemen of the Senate and House of Representatives:

I transmit herewith for the consideration of the General Assembly the annual report of the Secretary of the State Agricultural Society. This document contains a mass of information usual with the reports of this officer, and is an interesting presentation of facts concerning the agricultural products and resources of the State. Of the value of these reports I need not speak; the series has been before the people too long to require any laudation. This report, it will be remembered, comprises the introductory part of the annual publication of the Society's Proceedings, and is there accompanied with essays upon various topics of interest to the farmer. For the publication of this compilation, provision is made by law; but it has been the custom also to publish the Secretary's report proper at the same time as those of the institutions more directly under the control of the State, in order that its facts may be presented to the people at an earlier day and in a more convenient form than the full volume would offer. I suggest, therefore, that the General Assembly provide for the printing of an early edition of this document say, the same number as of the other documents.

I also invite your attention to the suggestions of the Secretary in relation to the needs of the Society, and ask that the General Assembly consider the same in conjunction with the work the State Agricultural Society has done, and is calculated to do, in the future, for the development of the material interests of the State.

As the Secretary's report is somewhat voluminous, I have not thought it necessary to have it copied, but herewith send the original to the House of Representatives.

SAMUEL J. KIRKWOOD.

1st. *Resolved*, That we urge upon our Legislature the importance of preventing, by some measures, the frequent and expensive changes in the text books in our common schools, such changes making a serious tax upon parents, and also being injurious to the public.

2d. *Resolved*, That all children between the ages of seven and fifteen years, unless excused by proper authority, and for sufficient reason, be required to attend school at least four months each year, and for failure to do so, the parent or guardian shall be fined at least two dollars for each scholar's absence, the fine to be for the benefit of the general school fund.

3d. *Resolved*, That it is the sense of this Institute, that the State has the constitutional right to enact stringent laws for the suppression of the traffic in spirituous liquors as a beverage; and, *Resolved further*, That we ask the General Assembly of the State of Iowa, now in session, by no means by any enactment, to weaken the present prohibitory liquor law.

4th. *Resolved*, That the herd laws should become universal in Iowa, and stock should be restrained from running at large by State enactment.

5th. *Resolved*, That all taxable property should be assessed at its

cash value, and that all assessments which constitute the double taxation of real estate, through the taxing of mortgages, be remitted.

6th. *Resolved*, That in view of the existing fact that litigation has become so expensive, and that this expense is drawn from the tax payers, on the part of the farmers of Delaware, that we protest against trial by jury, unless in cases when trial by arbitration has failed to give satisfaction.

7th. *Resolved*, That copies of these resolutions be forwarded to our county representatives, and request the same to be laid before the Senate and House of Representatives of the State of Iowa.

I hereby certify that the above is a true copy of the resolutions passed by the Delaware County Institute, at the January session, 1876.

BEN. VAN STEINBURG,
Assistant Clerk.

COMMITTEE REPORTS.

Senator Campbell, from the Committee on Railroads, submitted the following report:

MR. PRESIDENT:—Your Committee on Railroads, to whom was referred Senate resolution, asking inquiry into “the advisability of repealing the railroad tariff law enacted by the last General Assembly, and enacting a substitute therefor,” have had said resolution under consideration and have agreed to report, and do report to the Senate as follows:

We have examined into the workings of said law as far as it has been complied with, and are satisfied our people have been benefitted by it, the interests of the State advanced, and can find many reasons why said law should be retained upon our statute books.

While some of the railroads have complied with the law, others have refused to obey it, and are fighting it step by step through the courts to the highest judicial tribunal in the land. The courts below have affirmed the constitutionality of its provisions, and we anticipate a similar decision from the United States Supreme Court. This we regard as one great point gained in favor of the law. We find the law has reduced rates within the State largely; has wiped out the unjust discriminations and extortions that existed throughout the State prior to its passage; it has opened up markets within the State for our own products, facilitated the interchange of commodities at home, fostered the building up of manufactures at different points, the development of our agricultural resources, and is operating largely in favor of Iowa and Iowa people. Not a petition for repeal from our constituents has reached us, and we believe our people are content with the law, and desire to have it thoroughly tested.

The railroads of the State claim that the law reduced their rates on freight too largely, but as far as your Committee is aware do not ask amendments—they desire the *unconditional repeal* of the law, as far as freight rates are concerned, opposing any and all legislation, and asking to be “let alone,” unrestricted.

If the railroads desire amendments made to the law now in force, removing restrictions that should not exist, or, in regard to rights which they claim have been infringed upon by past legislation, they are respectfully requested to make known to your Committee their grievances, in order that justice may be done and wrongs remedied.

F. T. CAMPBELL,
Chairman R. R. Committee.

Senator Perkins, from the Committee on Railroads, submitted the following minority report:

To the President of the Senate:—A minority of your Committee on Railroads, beg leave to report as follows, with reference to the resolution said to have been before the Committee, looking to a repeal of the present railroad tariff law. The Senator from Woodbury, did some days ago introduce the following resolution, which, upon motion was ordered referred to the Railroad Committee:

warrants and orders of corporations in certain cases, beg leave to report that they have had the same under consideration and have instructed me to report the same back to the Senate with the recommendation that it be indefinitely postponed.

COMMITTEE REPORTS.

Senator Campbell, from the Committee on Railroads, submitted the following report:

MR. PRESIDENT:—Your Committee on Railroads, to whom was referred Senate resolution, asking inquiry into “the advisability of repealing the railroad tariff law enacted by the last General Assembly, and enacting a substitute therefor,” have had said resolution under consideration and have agreed to report, and do report to the Senate as follows:

We have examined into the workings of said law as far as it has been complied with, and are satisfied our people have been benefitted by it, the interests of the State advanced, and can find many reasons why said law should be retained upon our statute books.

While some of the railroads have complied with the law, others have refused to obey it, and are fighting it step by step through the courts to the highest judicial tribunal in the land. The courts below have affirmed the constitutionality of its provisions, and we anticipate a similar decision from the United States Supreme Court. This we regard as one great point gained in favor of the law. We find the law has reduced rates within the State largely; has wiped out the unjust discriminations and extortions that existed throughout the State prior to its passage; it has opened up markets within the State for our own products, facilitated the interchange of commodities at home, fostered the building up of manufactures at different points, the development of our agricultural resources, and is operating largely in favor of Iowa and Iowa people. Not a petition for repeal from our constituents has reached us, and we believe our people are content with the law, and desire to have it thoroughly tested.

The railroads of the State claim that the law reduced their rates on freight too largely, but as far as your Committee is aware do not ask amendments—they desire the *unconditional repeal* of the law, as far as freight rates are concerned, opposing any and all legislation, and asking to be “let alone,” unrestricted.

If the railroads desire amendments made to the law now in force, removing restrictions that should not exist, or, in regard to rights which they claim have been infringed upon by past legislation, they are respectfully requested to make known to your Committee their grievances, in order that justice may be done and wrongs remedied.

F. T. CAMPBELL,
Chairman R. R. Committee.

Senator Perkins, from the Committee on Railroads, submitted the following minority report:

To the President of the Senate:—A minority of your Committee on Railroads, beg leave to report as follows, with reference to the resolution said to have been before the Committee, looking to a repeal of the present railroad tariff law. The Senator from Woodbury, did some days ago introduce the following resolution, which, upon motion was ordered referred to the Railroad Committee:

Resolved, That the Railroad Committee be instructed to inquire into the advisability of repealing chapter 68, laws of the Fifteenth General Assembly, (the railroad tariff act,) and enacting a substitute therefor, said committee to report by bill or otherwise. The resolution however, from some cause, has never been in possession of the committee, and therefore has never been considered by it, nor has any other resolution of like import ever been before the committee. The minority of your committee would therefore insist that it is wholly improper for the majority to represent that their report is a report upon the resolution in question, or upon any similar resolution.

If the majority of the committee deem it to be in good taste, as their report would indicate that they do, to present you with a paper picturing the heavenly beauties of the railroad tariff law as it stands, alleging in spirit that no human wisdom could enlarge the nobility of its scope or amplify the harmony of its operative justice; the minority of your committee shall not complain if they shall be indulged in their effort at your entertainment; but the minority of your committee would respectfully represent that it is possible that that element in legislation, call it bunccombe or what you may, is not of so popular a character as it may have been in other and may be recent days.

The minority further ask to be indulged in the conviction that there is opportunity very justly to question the immaculate character of the present law; indeed, there is opportunity as the minority of your committee verily believe, to improve upon the legislation of two years ago, to rid it of certain features that through experience have been found antagonistic to the very ends sought to be obtained thereby. The minority of your committee feel further prepared to express the opinion that there is good reason to doubt that the law as it stands is such as was demanded two years ago by the producing classes and those most interested in the question of cheap transportation. There is room to apprehend that that law is an exaggerated attempt to meet what was then styled the grange sentiment of the State, but which, there is no room to doubt, in this law was totally disregarded as a portion of this report further on will show. Instead of the law in question having reduced the cost of transportation, and of having worked in various ways to the signal advantage of the State, there is abundance of evidence to support the contrary view. In fact complaints are made as to the direct and indirect effects of this law upon every hand, the public prints of many communities affirming that the cost of transporting grain to market has been increased under its operation from three to five cents a bushel, while it is generally regarded as having placed an embargo upon railroad building the State over.

This state of things, in the judgment of the minority of your committee, the committee should have carefully and impartially considered, seeking and accepting such information as was attainable, taking all necessary time to have arrived at safe, logical and valuable conclusions.

The subject to which the attention of the committee was invited was one of too much moment to warrant the hasty acceptance of a report cut and dried by one man, evidently prepared to defeat the legitimate purpose of the resolution; therefore the minority of your committee are not prepared to subscribe to the undigested and undigestible assumptions of the majority.

The experience of other States, more favorably located than ours as to markets, may well be profited by here. You are familiar with the history of this class of legislation in Minnesota; the experiments of Massachusetts are everywhere accepted as of practical value; and just now attention is attracted by the recent action of Wisconsin, which is given in the following dispatch printed in the daily papers of this morning :

"MADISON, Wisconsin, February 10.—The popular reaction against the railroad tariff law in this State, known as the Potter law, which has been augmenting more in its force as the law has been day by day applying itself, was made manifest to-day by the Assembly passing a law which repeals all the objectionable portions of the law, and gives to the State a law which is practically the Minnesota law, and one which will be acceptable to the people and also to the railroads. The vote stood 67 to 31. There is no doubt of the passage of the bill in the Senate. Indeed the friends of the new law say that there will be only eight votes against it.

"This measure was made the special order in the Assembly yesterday, and great popular interest attached to the debate which ensued in that body.

"The press of the State, which at the time nearly all endorsed the Potter law, has latterly been advocating repeal or modification. The greatest pressure for such change comes from the farmers and many of the strongest friends that the Potter law had originally."

As indicating that there is room for the faith that Iowa sentiment upon this matter, is not correctly stated by the majority report, and for the conviction that Iowa people—producers—"our constituents"—may not be far separated in their views, from the people of Minnesota and Wisconsin, the minority of your committee beg leave to cite the following modest paragraph from the *State Register* of this date :

"The *Newton Head-Light*—Senator Campbell's paper—in an article on the railroad law, says that the *Register*, the *Burlington Hawk-Eye*, and several other papers are trying to manufacture public sentiment against that measure. As most of the papers of the State agree with the *Register* and the *Hawk-Eye*, and as there are only three or four papers in the whole State defending the law, it would seem that the genial Senator has a queer idea as to who it is that is going counter to public opinion. The gentleman is the twelfth juror who has found eleven very obstinate men. It seems to be his side, with the *Newton Head-Light*, and the *Davenport Gazette* and *Democrat*, and the *Muscatine Journal*, which are having the hardest time of it "manufacturing public sentiment". And even in that party, small as it is, there seems to be a division. For at the Davenport mass meeting, where the law was sustained, and the resolutions quoted elsewhere adopted, a recommendation for a change to the commissioner system barely escaped adoption. It may be that the great mass of the Iowa papers are wrong on this subject,—and the *Head-Light* and the three or four papers with it right. But still it may happen that the former are just as honest and sincere in their opinions and criticisms as are the latter,—and it may be, that the larger number of public presses reflect public sentiment just as faithfully as the smaller number."

Finally, the minority of your committee, ask your respectful atten-

tion to the following extract from the official proceedings, as published, of the fifth annual session of the Iowa State Grange, which it is believed generally supports the view of the minority committee, and places the Grangers, the producers, in opposition to the opinions so sweepingly expressed in the majority report.

"THE REPORT OF THE COMMITTEE TO MEMORIALIZE THE LEGISLATURE.

Your Committee would respectfully report that the duty was discharged as follows :

The Committee met at Des Moines in February, and unanimously agreed to submit to the General Assembly a memorial reciting that the Patrons of Husbandry wage no aggressive warfare against any other interest; that our business efforts are for the benefit of both the producer and consumer, and for all other interests that bring these into economical contact; that transportation companies are necessary to our success, their interests are intimately connected with, and largely dependent upon our interests, and so far from there being any unnecessary antagonism, harmonious action is mutually advantageous; that we need an increase of facilities for transportation, and we are the friends of railways and of all enterprises that advance the interests of the producing classes; that we oppose the tyranny of monopolies and wish honest and healthy competition in their stead; that we desire to see abuses abolished, and that fraud, extortion and corruption should cease.

In presenting this memorial to the Committee of the House of Representatives on Railways, of which Hon. J. Q. Tufts was chairman, your committee was received very kindly, and was invited to express orally the sentiments and views of our Order. Some of the members of your committee thereupon discussed the questions involved, presenting their views as to the advantages to be derived from competing routes to competing markets, and the importance of a proper and reasonable development of a system of railways that would enable our products to reach Chicago or St. Louis on fair terms, at the option of the shippers.

It was not the sense of your committee that a "cast iron tariff bill" would do justice to the people and to the railways, and at the same time tend to such extension of our means of reaching the markets of the world as seems to be demanded in the present, and must become a necessity at no distant day. Your committee felt that grave abuses existed in the management of railways, abuses that worked serious injury and wrong to the stockholders as well as to the public; and that the immense fortunes which have been so rapidly built up by railway managers have been filched from the owners of the roads as well as from the public. In the effort to abolish these abuses, and to prevent extortion, your committee approached the subject feeling great distrust in themselves, and a profound sense of the magnitude of their undertaking. They did not forget that the question of cheap transportation is fast becoming the leading issue of the day. When transportation levies a tax upon corn greater than the first cost of its production, it is easy to see which is king. It is immeasurably important, then, that the system should be equitably adjusted.

But to this end it is necessary that the subject should be understood and its importance appreciated. When due considerations shall have been given to it by the trained minds of every section of the country, when the judgment and experience of practical men from every department of commerce and production shall have been brought to bear upon it, added to the experience of all portions of our own country, and the tests to which it has been submitted in other lands, then, and not till then, might we expect to meet the mighty problem with hope of its solution.

Your committee, for these reasons, made no suggestions tending to control in minute detail the charges of the roads. Feeling that the "assembled wisdom" of Iowa needed light on the subject, your Committee recommended that legislation be confined to the correction of well known abuses; to the prevention of fraud, favoritism, and extortion; to the encouragement of competition, and to obtaining information on the subject that would justify legislation in detail, or prove it to be impracticable. To this end the committee presented the following propositions for enactment, and asked that suitable penalties should be provided for all violations:

1. That every tariff be general in form and apply to all persons alike.

2. That no intervening station be charged more than a station more remote for the same or similar services.

3. That all railway companies be required to transport the cars of other companies, corporations, and individuals, for a just and reasonable compensation, and with dispatch.

Your committee suggested the regulation of this compensation by providing that it should not exceed the lowest charges for similar transportation of their own cars, on any part of their own line, in either direction for an equal distance.

Your committee are still of the opinion, after more mature reflection, that these propositions, embodied in a law carefully prepared, would be found to be of some value as commencing a system of legislation in which it is important that no wrong or imposition should be enacted, and in which the successive steps should all be forward, and none backward. To the same end your committee recommended that information should be obtained and abuses corrected through the appointment of capable and true men, whose undivided attention should be given to this subject, constituting a system of Commissioners as follows:

1. That the Governor, with the consent of the Senate, appoint three Commissioners, who shall hold respectively one, two, and three years from the first day of May next; also; appoint in like manner a Commissioner for three years to fill each vacancy occurring by expiration of time of each Commissioner; and may in the same manner remove any of the Commissioners.

2. That the Commissioners have general supervision of railroads in the State, to examine them and keep themselves informed of the condition and manner in which they are operated with reference to the accommodation and security of the public, and the compliance of the roads with the provisions of their charters and the laws of the State.

3. That the Commissioners serve notice in writing upon the officers

of all roads that in their judgment fail to comply with the laws, or that fail to make necessary additions and repairs to their roads or rolling stock, or that fail to give due accommodation to the public in stations and station houses, or in any other way fail to promote the security, convenience and accommodation of the public, and demand of the said roads all such reasonable and expedient action as shall promote such security and accommodation.

4. That the Commissioners make examination of the condition and mode of operating any railroad upon the complaint of any railroad company, of the board of supervisors of any county, the mayor and aldermen of any town or city, or the petition of fifty tax payers of any county. That they give due notice to both parties of the time and place of such examination, and adjudge and decide the case upon its merits.

5. That the railroads furnish the Commissioners with all information demanded, and particularly with all leases, contracts, agreements, rates of charges, both with the public and other companies or corporations.

6. That the Commissioners have an office at the capital of the State, have a clerk, who shall receive a salary of not exceeding \$..... per annum, stationery, fuel, etc., not exceeding \$..... per annum, a salary of \$..... each per annum; one-half of which expenses shall be apportioned among the several railroads of the State, and paid by them, as other taxes of said roads are collected and paid, and the other half from the State Treasury.

7. That the Commissioners report to the General Assembly all their acts, and all such facts and explanations as will disclose the actual workings of the railroad system of transportation in its bearings upon the business, development and prosperity of the State, and also all suggestions as to the general railroad policy of the State, or any part thereof, or as to the condition or management of any railroad in this State, as to them may seem appropriate.

8. That the Commissioners and clerk be sworn to a faithful performance of their duties, and no person in the employ of any railroad corporation or owning stock therein hold either of said offices.

Your committee were requested to embody these views in a bill, but not being skilled in such craft declined to do so. However, at the special request of Mr. Tufts, a member of your committee prepared a bill, one section only of which was embodied in the act that was passed, and is now the law of the State.

It is due to the General Assembly, as well as to your committee, to state that quite a large proportion of the more able and independent members of the Assembly favored the proposition presented, as well as the bill. It is no injustice to that body, however, to state that very many of its members entertained the most crude notions as to the whole matter, and grappled the subject in that spirit of innocence with which an infant would play with a serpent. They saw that corn was sold in Iowa for fifteen cents and brought five times that amount in Massachusetts, and they were bound to make a change. Others agreed that the action proposed by your committee was the wiser and better course, but alleged that the people demanded a tariff bill; it had been promised on the stump, and they dare not face the Grangers at home

unless they supported it. Many were new to public life, looked on themselves as on the highway that led to the Presidency; mistook clamor for the popular will, and were solicitous "to stand right on the record."

Your committee would be glad, did the space reasonably allotted to this report admit of it, to discuss the merits of the several propositions presented. They were simply meant to correct abuses, to foster competition, and prevent extortion. They were not meant to apply simply to a period of low prices and general depression, such as then existed, but were to be adopted as great principles, and to control the transportation of the future. To base legislation upon the price of corn in different markets could have but the result we have already experienced, to-wit: to change a portion of the tax from one product or distance to another. This we have experienced; and to day the reason there is not a general outcry against the increased rates is because the laws of supply and demand give us fifty cents a bushel for corn and six cents per pound for hogs. These are paying prices, and the people are content, and the great question of cheap transportation is no nearer a solution than it was before.

But the most singular feature of this whole matter is in the fact that responsibility for the bill which was passed by the General Assembly is laid at the door of "the Grange," and it is so accepted by the railroads and the general public. It is to be hoped that through this report that error may be corrected, at least so far as the Patrons of Husbandry may have misunderstood the facts.

It has long been a popular error that legislation is the grand panacea for many ills. We are learning, however, that a more diversified industry, a better husbandry, and selling more than we buy are likely to bring relief to us as a people and as individuals. If we persist in demanding transportation for grain we need outlets by water. The Rock Island and Hennepin Canal, the Fox River improvement, the enlargement of the Erie canal, the use of the enlarged Canadian canals, these are all demanded if the West is to ship grain in bulk. We can pay railroad freights on cattle, hogs, horses, mules, meat in bulk, wool and manufactured articles generally, and by producing a better quality of all these than can be procured from the serfs of Eastern Europe or the wild hordes of other countries, we may still get returns that will satisfy intelligent labor. The exportation of beef on the hoof has begun. The Anchor line of ocean steamships has carried American cattle to Glasgow, as we are informed, at a large profit. But cattle that will bear transportation across the ocean are not those of Texas or the Plains, nor are they those of Iowa that are reared without care and but little better; but they are thrifty and well fattened bullocks of three and four years old that weigh a ton each, more or less, and might to-day be sold for such shipment at one hundred and fifty dollars per head, from our own scales.

These facts, and the demand for the best grades of butter and cheese, both at home and abroad, should teach us to adapt our husbandry as rapidly as possible to the world's demands, more especially when we can well pay on these products the present demands of those who transport them. Your committee believe that Iowa Patrons are rapidly attaining a knowledge of these facts, and learning that they

can more reasonably rely upon enlightened individual effort and proper co-operation to bring relief, and that these are working out for us a better day. We must learn, however, to labor and to wait with patience. The legislation we have on the subject of transportation will be productive of good results in its teachings, and will prepare the people for a better understanding of this important subject and prove that it must be taken in hand with the utmost wisdom and prudence if we would attain important results and hope for relief.

Your committee, while not approving of the law, have much pleasure in noting that most of the railways in the State promptly complied with its provisions. We have no sympathy with the idea that corporations are less amenable to the statutes than are private citizens; on the contrary, the more powerful the corporation so much more should be the pride of our executive officers in enforcing submission. Any failure in this direction will not have the countenance of our Order, and can only be mentioned to be condemned.

Finally, we commend the study of this interesting and difficult problem to the Patrons of Husbandry, in the hope that through them the people at large may come to better appreciate its magnitude, and be more ready in the future to follow the teachings of wisdom and experience, rather than to give ear to brawling demagogues who seek place and power by exciting prejudices and unnecessary antagonisms. Although not greatly encouraged by what has been done, we are not without hope in the future, and believe that the people will yet prove themselves to be the sovereigns, and that they will master the difficulties presented.

Respectfully submitted.

JNO. SCOTT, *Chairman.*

All of which is respectfully submitted.

Signed.

GEO. D. PERKINS,
S. H. KINNE,

Of Senate Railroad Committee.

DES MOINES, IOWA, Friday morning, Feb., 11, 1876.

APPENDIX.

The minority of your committee beg to add the following from the State Register of February 12th.

TARIFF FIGURES WON'T LIE.

A few days ago Senator Campbell stated in his paper, the *Newton Headlight*, that the railroad tariff law had saved millions of dollars to the Iowa farmers, and instanced the fact that his own county had saved large sums of money by sending its grain to Davenport instead of Chicago—that the local rates on grain from Newton to Davenport were largely reduced, and that the farmers of Newton had shipped their grain to Davenport, and thereby saved their proportion of “the millions” above mentioned.

We have taken some pains to test the strength of his statements, and find out how much his constituents had indulged in this *saving*

process. Whether the figures justify his rose-colored rhetoric, we submit to the Senator himself.

Before the law went into operation the rate on wheat from Newton to Chicago was \$58.00 per car load. Since that time it has been \$66.00 an increase of \$8.00. On other grain the rate was \$58.00, and it is now \$66.00, being an increase of \$8.00. Before the law the rate from Newton to Davenport was \$43.00 per car; since, \$29.20, a reduction of \$13.80. Having brought about this change of rates the Senator naturally concluded he had done a good thing for his constituents, and if any man attempts to deny it, "shoot him on the spot."

In the year 1875 there were shipped from Newton 1,400 car-loads of wheat and other grain, of which only 158 were shipped to Davenport. There was a saving on this shipment of \$2,180.40.

Seventy-two car-loads of the 1,400 went to St. Louis. The remainder—1170—went to Chicago and Milwaukee, on which there was a loss to the shipper of \$8.00 per car or \$9,360.00. Deducting the saving on the Davenport shipment from the loss on the Chicago and Milwaukee shipment, there is a net loss to his constituents of \$7,179.60 on grain alone.

On live stock the rate before the law took effect was \$58.00 per car. Since the law the rate has been \$63.00, showing an increase of \$5.00 per car. If Senator Campbell claims that Newton has shipped all its live stock to Davenport on the reduced rates of the tariff law, as he did as to grain, we will endeavor to ascertain what proportion of it was shipped to that metropolis.

Senator Dashiell moved to recommit the resolution to the committee.

The motion was lost,

Senator Merrell of Clinton, moved to print the report of both committees.

On this question the yeas and nays were demanded and the yeas were:

REPORTS OF COMMITTEES.

Senator Murphy, from the Committee on the Suppression of Intemperance, submitted the following report:

MR. PRESIDENT:—A minority of your Committee on the Suppression

of Intemperance, to whom was referred S. F. No. 145, A bill for an act to repeal parts of chapter 6, of title 11 of the Code, pertaining to intoxicating liquors, and to regulate the manufacture and sale thereof, beg leave to report that they have had the same under consideration, and a small minority of said committee have instructed me to report the same back to the Senate with the recommendation that it do pass. And we assign the following reasons for the faith that is within us:

First. Because the present Maine liquor law has failed to accomplish the end for which it was enacted, and this conclusion is found in the fact that liquor is sold in nearly every village, town, and city in the State, and in the further fact that the records of our courts show that intemperance, and consequently crime, have increased rather than decreased.

Second. Because secret drinking is encouraged by it, and this is the worst type of drinking. It converts drug-stores into dram-shops, and makes of otherwise good and respectable men, hypocrites, sneaks and liars, in the purchase of liquore.

Third. It cripples the power of the State to suppress nuisance and to check intemperance, by paying a premium for blackmailing, and placing the dealers who are desirous of keeping orderly places at the mercy of drunken rowdies and infamous scoundrels.

Fourth. Because it induces men to be dishonest by encouraging lying and false swearing and engenders bad faith among the people by making debts for the sale of liquors uncollectable, thereby giving a license to swindlers.

Fifth. Because it encourages bad and irresponsible men to engage in the traffic of liquor and tends to drive out of the business men who would keep orderly houses and who if not subjected to blackmailing spies would themselves aid in the suppression of intemperance.

Sixth. Because it presents the anomaly in legislation of taxation without protection, and because of the further anomaly of holding the dealer responsible instead of the real offender.

Seventh. It makes a farce of our courts by its unwise, unjust, and impracticable provisions.

Eighth. Because it checks the growth and prosperity of our State by discouraging emigration, by discouraging the establishing of distilleries, and sending from our State millions of dollars annually for the purchase of liquors which are consumed herein, by taking from the State a large revenue which would be derived from license and thereby lighten the burden of taxation.

Ninth. Because it is in contravention to the provisions of the constitution and the spirit of the declaration, which guarantees to every citizen personal freedom and protection with taxation.

And for the following reasons and the statement of facts and figures hereto appended, we are in favor of a judicious license law.

First. A license law, in our judgment, would aid the advancement of true and genuine temperance. It would stop, to a great extent, the pernicious habit of secret drinking and thereby abolish the practice of buying liquors by the pint and quart, to be drank in immoderate quantities in alleys and behind wood piles. It would drive out of existence (as has been witnessed in Boston where under a license law there are 1,800 saloons less now in that city than formerly) the low grogeries and miserable death dealing rum holes.

Second. Because none but men of good repute, honorable and responsible could engage in the traffic, and they could refuse to drunken men liquors without subjecting themselves to blackmail for such refusal.

Third. Because it would bring the real offenders to justice, and make drunkards and drunkenness and not the traffic a crime, thereby checking intemperance, immorality and crime.

Fourth. Because it would restore the ancient dignity of the courts, and impress the people with the supremacy and majesty of the law.

Fifth. Because experience has taught us the utter impossibility to stop the consumption of liquors, and the workings of the prohibitory liquor law has failed in any degree to check or even regulate the sale and use of the same.

LICENSE LAW.

Amount of corn and rye used in the manufacture of these highwines, 750,000 bushels, upon which there would be saved to the farmers of Iowa ten cents per bushel on freight, making.....	75,000.00
Amount that would be realized by licensing 4,000 saloons, breweries, and distilleries, averaging \$100 each.....	400,000.00

Amount that would be gained by exporting highwines and alcohol, if manufactured in this State, at least.....	1,000,000.00
Amount that would be saved by fattening hogs and cattle on still slop.....	1,000,000.00

Now therefore, all lands or rights to lands, saving and excepting all those tracts and parcels lying within twenty miles on either side of the located or constructed line of the Sioux City and St. Paul Railroad Company and within what is known as the "over-lapping limits," heretofore granted or intended to be granted to the McGregor & Sioux City Railway Company, be and the same are hereby absolutely resumed by the State of Iowa.

Nothing contained in this act shall be so construed as to affect or change the rights of the McGregor and Missouri River Railroad Company, or of the Sioux City and St. Paul Railroad Company, as now existing, in relation to lands where their rights conflict or overlap, nor shall this act in any manner affect either company in any pending litigation; and if the McGregor and Missouri River Railroad Company shall obtain right or title to any lands heretofore patented to the State for the benefit of the Sioux City and St. Paul Railroad Company, over which the last named company has constructed its road, then the McGregor and Missouri River Railroad Company shall, for the consideration of one dollar, convey and release to the Sioux City and St. Paul Railroad Company a right of way over said lands, on its present line, fifty feet in width on each side in ordinary cases, and in cases where cuts occur, such additional width as may be necessary for protection against drifting snow, not exceeding one hundred and fifty feet in width on each side of said center line of track; and if any of said lands in dispute as to title shall be finally adjudged to the Sioux City and St. Paul Railroad Company, and be owned by it when the McGregor and Missouri River Railroad Company constructs its road, or particularly designates its precise route or track to a junction with said Sioux City Road, then the last named company shall, for the consideration of one dollar, convey to the McGregor and Missouri River Railroad Company, a like right of way as above for its road.

It is further made an express condition of this grant that should the

McGregor and Missouri River Railway Company be finally adjudged to be the owner of section thirteen (13), township ninety-nine (99), range forty (40) which has been heretofore patented to the State for the use of the Sioux City and St. Paul Railroad Company, it being the section of land on which Sibley is located in Osceola county, on which large expenditures and expensive improvements have been made by the Sioux City and St. Paul Railroad Company, it shall be the duty of the McGregor and Missouri River Railway Company to permit the Sioux City and St. Paul Railroad Company to purchase said section at the price of two dollars and fifty cents per acre, and upon the tender of the purchase money therefor the last named company shall be entitled to receive said land by a conveyance of all the title received by said McGregor and Missouri River Railway Company of the United States or from the State of Iowa, and the Sioux City and St. Paul Railroad Company shall thereupon confirm said plat of Sibley and complete the title of Osceola county to the ground given for the court house and also confirm the title to all donations of lots heretofore made for school houses and church lots and fulfill and confirm all contracts made with individuals for the sale of lots in Sibley.

And it is further provided, that in case the McGregor and Missouri River Railway Company shall be constructed to a connection with the Sioux City and St. Paul Railroad Company at Sheldon then the last named company in consideration of the foregoing beneficial privileges shall donate right of way and suitable depot grounds in the village of Sheldon to said McGregor and Missouri River Railway Company.

Senator Cooley moved to fill the blank in section 2 by inserting "fifty thousand," and to insert after the word "dollars" the words "liquidated damages within sixty days after the passage of this act."

The amendment was adopted.

Senator Campbell offered the following as an addition to section 1, which was adopted:

Provided, That Federal legislation be had in 1876 by which the McGregor and Missouri River Railway Company is permitted to make its junction with the Sioux City & St. Paul Railroad west or south-west of Primghar, outside of O'Brien county, then in that event said McGregor & Missouri River Railroad shall be constructed from Spencer to Primghar, and thence to such point of intersection with the Sioux City & St. Paul Railroad as the McGregor & Missouri River Railroad Company may designate.

And provided further, said railroad company, or any other railroad company accepting the provisions of this act, shall at all times be subject to such rules, regulations, and rates of tariff for the transportation of freight and passengers as may from time to time be enacted and provided for by the General Assembly of the State of Iowa, and further subject to the conditions, limitations, restrictions and provisions

contained in this act, and in the acts of Congress granting said lands to the State of Iowa; and the filing by any railroad company of the bond hereinafter provided, shall be taken and accepted as an acceptance by the company and so filing of the above proviso and each part thereof.

Senator Larrabee moved to add to end of ninth line of section 4, "and subject to all provisions of this act."

The motion was adopted.

Senator Larrabee moved to insert in section 4, in the twelfth line, after the word "by," the words, "section two of this act."

The amendment prevailed.

On motion of Senator Woolson the word "one," in thirteenth line, section 3, was changed to "two."

Senator Cooley moved to amend section 3 by inserting after the word "bond," in seventh line, the words, "in the sum of fifty thousand dollars."

The motion prevailed.

Senator Hartshorn offered the following as an additional section to the bill, which was adopted:

SEC. 7. That acceptance of the provisions of this act shall be deemed a release by the company, accepting the same of all claims to unpatented land, selected for and belonging to the original grant, which have been entered and occupied in good faith pursuant to the provisions of the pre-emption and homestead laws, and upon the making of final proof of occupation and improvement, now required by law, and of good faith as aforesaid, to the satisfaction of the Register of the State Land Office, the Governor is hereby authorized to execute a patent for such land to the persons entitled thereto.
